

The new compression lever latch 90 x 35 mm with
flush handle plate and release button for assembly
from the outside

01 Requirements

„In many application areas the focus is on a fast, easy and comfortable assembly as well as reduction of installation time.

For this reason we developed a compression lever latch with flush handle plate which can be installed easily and fast from the front.”

Andrea Alt, Authorized Representative and Director International Sales

02 Product benefits

Practical and comfortable

The flat handle plate of this lever latch serves as a handle and is larger than the housing. The installation from the front ensures the reduction of assembly time and increased user-friendliness.

- Compression lever latch with pre-assembled fastening bracket for installation from the outside
- Assembly of the fastening bracket from the inside is not necessary
- Flush handle plate with release button
- Easy and flexible adjustment of the H-dimension from 31 to 43 mm

Flexible use

The lever latch can be used indoor and outdoor due to the foamed sealing.

- Water- and dust-tight according to IP66 DIN EN 60529
- With compression
- In locked position it is not possible to disassemble the latch
- Keyed alike DIRAK 1333
